This page reports pharmacists who are active or have an unknown activity status. *The data for 2004-2006 originally underestimated the number of pharmacists in the state. These data have been updated with more accurate figures from the NC Board of Pharmacy.

The data for the North Carolina Health Professions Data System are provided to the respective licensing boards by health professionals at the time of initial licensure or renewal. The data are tabulated by the Sheps Center but at all times remain the property of the boards.
