## Rural Information

The information below defines “Urban” as residing in a metropolitan county and “Rural” as residing in a non-metropolitan county.

**Current Population Survey Data**

<b>Percent of Residents Enrolled in Medicaid, by Age and Rurality</b>		
<b>Age</b>	<b>Urban % on Medicaid</b>	<b>Rural % on Medicaid</b>
0 – 18	17.8	24.8
19 – 64	7.0	7.3
65 and Over	3.9	10.4

Source: Current Population Survey, 2005 - 2006

**State Website Data**

<b>Medicaid Data, Urban and Rural</b>		
	<b>Urban</b>	<b>Rural</b>
I. Total Eligibles <sup>13</sup> (2007)	26,118	50,229
II. Eligibles per Population	7.9%	8.2%
III. Dollars Spent	NA	NA
IV. Dollars Spent per Eligible	NA	NA

## Critical Access Hospitals (CAH)

	Yes	No
CAH Cost Base for Medicaid Patients?	X	

Source: Kip Smith, Montana Flex Coordinator, 2008.

<sup>1</sup> Parents' eligibility levels are based upon the income threshold applied to a working parent in a family of three.

<sup>2</sup> This Section 209b states exercise an option that allows states to use their 1972 financial and non-financial standards instead of the federal SSI standards to determine eligibility for the disabled. If a state uses its more restrictive 1972 financial eligibility standards, it must also allow disabled individuals to "spend down" into Medicaid eligibility by deducting incurred medical expenses from income.

<sup>3</sup> A commercial managed care organization (MCO) provides comprehensive services to Medicaid and commercial and/or Medicare populations.

<sup>4</sup> A Medicaid MCO provides comprehensive services to only Medicaid beneficiaries, not to commercial or Medicare populations.

<sup>5</sup> CMS defines a Health Insuring Organization (HIO) as "a managed care entity which, by law, is exempt from certain rules governing MCO program operation such as the requirement for beneficiaries to have a choice of at least two managed care entities in mandatory programs."

<sup>6</sup> CMS defines a Primary Care Case Management (PCCM) provider as: "a provider (usually a physician, physician group practice, or an entity employing or having other arrangements with such physicians, but sometimes with such physicians, but sometimes also including nurse practitioners, nurse midwives, or physician assistants who contracts directly with the State to locate, coordinate, and monitor covered primary care (and sometimes additional services). This category also includes those PIHPs that contract with the State as "primary care case managers."

<sup>7</sup> CMS defines a Prepaid Inpatient Health Plan (PIHP) as a plan that "provides less than comprehensive services on an at-risk or other than state plan reimbursement basis; and provides, arranges for, or otherwise have responsibility for provision of any inpatient hospital institutional services." States can offer PIHPs for medical services, mental health, substance abuse disorders, or long-term care services.

<sup>8</sup> CMS defines a Prepaid Ambulatory Health Plans (PAHP) as a plan that "provides less than comprehensive services on an at-risk or other than state plan reimbursement basis; and does not provide, arrange for, or otherwise have responsibility for provision of any inpatient hospital or institutional services." States may offer PAHPs for medical services, mental health, substance abuse disorders, dental, transportation or disease management.

<sup>9</sup> CMS defines the Program for All-inclusive Care for the Elderly (PACE) as a "program that provides prepaid, capitated comprehensive, health care services to the frail elderly."

<sup>10</sup> CMS categories managed care organizations as "other" if it is "not considered a PCCM, PIHP, PAHP, Commercial MCO, Medicaid-only MCO, HIO or PACE."

<sup>11</sup> The Federal Medical Assistance Percentage (FMAP) is computed from a formula that takes into account the average per capita income for each State relative to the national average. By law, the FMAP cannot be less than 50%.

<sup>12</sup> The multiplier is based on the FMAP. For every dollar the state spends on Medicaid, the federal government matches at a rate that varies year to year.

<sup>13</sup> Average Recipients per Month
