

HCPCS Code	South Carolina	North Carolina	Louisiana
00840		Anesthesia intraperitoneal procedures in lower abdomen including laparoscopy; not otherwise specified.	
00851	Anesthesia, intraperitoneal procedure, lower abdomen, Including laparoscopy; tubal ligation/transection	Anesthesia intraperitoneal procedures in lower abdomen including laparoscopy; tubal ligation/transection.	Anes; tubal ligation/transection
00921		Anesthesia for procedure on male genitalia (including open urethral procedures); vasectomy, unilateral or bilateral.	
00952	Anesthesia for vaginal procedure (including biopsy of labia, vagina, cervix, or endometrium); hysteroscopy and/or hysterosalpingography.		
11975	Insertion, implantable contraceptive capsules		Insertion or reinsertion, implantabl
11976	Removal, implantable contraceptive capsules	Norplant – implant removal	Removal without reinsertion, implant
11977	Removal with reinsertion, implantable contraceptive capsules		Removal with reinsertion, implantabl
11981	Insertion, non-biodegradable drug delivery implant		
11982	Removal, non biodegradable drug delivery implant		
11983	Removal, with reinsertion, non-biodegradable drug delivery implant		
36415	Collection of venous blood by venipuncture		Venipuncture multiple patients
36416	Collection of capillary blood specimen		
55250		Vasectomy, unilateral or bilateral (including postop semen examination(s))	
55450		Ligation of vas deferens, unilateral or bilateral	
57170	Diaphragm or cervical cap fitting w/ instructions	Diaphragm – fitting with instructions	Diaphragm fitting with instructions

HCPCS Code	South Carolina	North Carolina	Louisiana
58300	Insertion of intrauterine device	IUD insertion	Insert intrauterine device
58301	Removal of intrauterine device	IUD removal	Remove intrauterine device
58340	Catheterization and introduction of saline or contrast material for saline infusion sonohysterography (sis) or hysterosalpingography		
58565	Laparoscopy/hysteroscopy with bilateral fallopian tube cannulation to induce occlusion by placement of permanent implants		
58600	Ligation or transection of fallopian tube(s), abd or vaginal, unilateral or bilateral	Tubal ligation by abdominal incision	Division of fallopian tube
58615	Occlusion of fallopian tube(s) by device (e.g., band, clip) vaginal or suprapubic approach	Tubal ligation by suprapubic approach	Occlusion of fallopian tube, device
58670	Laparoscopy with fulguration of oviducts (with or without transection)	Tubal ligation by laparoscopic surgery	Laparoscopy, tubal cautery
58671	Laparoscopy with occlusion of oviducts by device (e.g., band, clip)	Tubal ligation by laparoscopic surgery	Laparoscopy, tubal block
62311			Inject spine l/s (cd)
62319			Inject spine w/cath l/s (cd)
71010	Radiologic examination, chest; single view, frontal	Radiology examination; chest; single view, frontal	X-ray chest; single view
71020			X-ray chest; two views
74740	Hysterosalpingography, radiological supervision and interpretation		
76856			Echography, pelvic, real time
76830			Echography, transvaginal
80048	Basic metabolic panel		Basic metabolic panel
80050			General health screen panel

HCPCS Code	South Carolina	North Carolina	Louisiana
80051			Electrolyte panel
80061			Lipid profile
81000	Urinalysis by dip stick or tablet reagent for bilirubin, glucose, hemoglobin, ketones, leukocytes, nitrite, ph, protein, specific gravity, urobilinogen, any number of these constituents; non-automated, with microscopy	Urinalysis by dip stick or tablet reagent	Urinalysis w/ microscopy
81001	Urinalysis by dip stick or tablet reagent for bilirubin, glucose, hemoglobin, ketones, leukocytes, nitrite, ph, protein, specific gravity, urobilinogen, any number of these constituents; automated, with microscopy	Urinalysis; automated with microscopy	Urinalysis, auto, w/scope
81002	Urinalysis by dip stick or tablet reagent for bilirubin, glucose, hemoglobin, ketones, leukocytes, nitrite, ph, protein, specific gravity, urobilinogen, any number of these constituents; non-automated, without microscopy	Urinalysis; non-automated without microscopy	Routine urine analysis
81003	Urinalysis by dip stick or tablet reagent for bilirubin, glucose, hemoglobin, ketones, leukocytes, nitrite, ph, protein, specific gravity, urobilinogen, any number of these constituents; automated, with microscopy	Urinalysis; automated without microscopy	Urinalysis, by dip stick or tablet r
81005	Urinalysis; qualitative or semiquantitative, except immunoassaysal kit		Urinalysis
81007	Urinalysis; bacteriuria screen, by non-culture technique, commercial kit		
81015	Urinalysis microscopic only		
81020	Urinalysis; two or three glass test		
81025	Urine pregnancy test by visual color comparison methods	Urine pregnancy test	Urine pregnancy test, by visual colo
82948			Stick assay of blood glucose

HCPCS Code	South Carolina	North Carolina	Louisiana
82962			Glucose, blood, by glucose monitorin
83020			Assay hemoglobin
84520			Assay bun
84550			Assay blood uric acid
84702	Gonadotropin, chorionic; quantitative	HCG quantitative	Gonadotropin, chorionic; quantitative
84703	Gonadotropin, chorionic; qualitative	HCG qualitative	Gonadotropin, chorionic; qualitative
84780	Infectious agent detection by nucleic acid; bartonella henselae and bartonella quintana, direct probe technique; candida species		
85007	Blood count; manual differential wbc count (includes rbc morphology) and platelet estimation		
85008	Blood count, manual blood smear examination without differential parameters		
85009	Blood count; differential wbc count, buffy coat		
85013	Blood smear, spun microhematocrit	Blood count; spun microhematocrit	Blood count;
85014	Blood smear, hematocrit	Blood count; other than spun hematocrit	Blood count other than spun hematocr
85018	Hemoglobin	Blood count; hemoglobin	Hemoglobin, colorimetric
85025	Blood count, complete cbc with automated differential wbc count		Blood count; hemo; plat count
85027	Blood count; automated differential wbc count, complete cbc, automated (hgb, hct, rbc, wbc, and platelet count)	Blood count; rbc only	
85032	Manual cell count (erythrocyte, leukocyte or platelet) each		
86255	Fluorescent noninfectious agent antibody, screen, each		

HCPCS Code	South Carolina	North Carolina	Louisiana
86592	Syphilis test, qualitative	Syphilis	Syphilis test(s), qualitative
86593	Syphilis; qualitative	Syphilis	Syphilis test, quantitative
86631		Chlamydia	Antibody
86632		Chlamydia, igm	
86645			Antibody
86687			HTLVI, antibody detection; immunoassa
86688			Antibody
86689	HTLV or HIV antibody	HTLV or HIV antibody	Confirmatory test
86694	Herpes simplex; non-specific type test	Herpes simplex, non-specific type test	
86695	Herpes simplex; type 1	Herpes simplex, type 1	
86696	Antibody; herpes simplex type 2	Herpes simplex, type 2	
86701	Immunoassay performed by multiple step method for the detection of antibodies to infectious agents-HIV-1	HIV – 1	Antibody
86702	Antibody HIV 2	Antibody HIV-2	Antibody
86703	HIV-1&2	HIV – 1&2	Antibody
86781	Treponema pallidum, confirmatory test (e.g., fta-abs)	Treponema pallidum, confirmatory test	
87070			Culture specimen, bacteria
87075			Culture specimen, bacteria
87081	Culture, bacterial, screening only, for single organisms	Culture, bacterial, screening only, for single organisms	Bacteria culture screen
87110	Culture, chlamydia	Culture, chlamydia	Culture, chlamydia
87164	Dark field examination, any source; includes specimen collection		
87177	Smear, primary source, with interpretation, fluorescent and/or acid fast stain for bacteria, fungi, or cell types		
87205	Smear, primary source with interpretation; gram or giemsa stain for bacteria, fungi, or cell types		

HCPCS Code	South Carolina	North Carolina	Louisiana
87206	Smear, primary source with interpretation fluorescent and /or acid fast stain for bacteria, fungi, or cell types		
87207	Smear, primary source with interpretation, special stain for inclusion bodies or intracellular parasites (e.g., malaria, kala azar, herpes)	Smear, primary source, with interpretation, special stain for inclusion bodies or intracellular parasites (e.g., malaria, kala azar, herpes)	
87209	Smear, primary source with interpretation, complex special stain (e.g., trichrome, iron hemotoxylin) for ova and parasites		
87210	Smear, primary source with interpretation; wet mount for infections agents (e.g., saline, india ink, koh preps)	Smear, primary source, with interpretation, wet mount with simple stain, for bacteria, fungi, ova, and/or parasites	Smear, stain & interpret
87220	Tissue examination for fungi		
87270	Chlamydia trachomatis	Infectious agent antigen detection by enzyme immunoflourescent technique; adenovirus; chlamydia trachomatis	Chylmd trach ag, dfa
87273		Herpes symplex virus, type 2	
87274		Herpes simplex virus, type 1	
87285		Treponema pallidum	
87320		Infectious agent antigen detection by enzyme immunoassay technique; adenovirus; chlamydia trachomatis	Chylmd trach ag, eia
87390		HIV-1	HIV-1 ag, eia
87391		HIV-2	HIV-2 ag, eia
87480	Candida species, direct probe technique		Candida, DNA, dir probe
87481	Candida species, amplified probe technique		Candida, DNA, amp probe
87482	Candida species, quantification		
87490	Infectious agent detection by nucleic acid; bartonella henselae and bartonella quintana, direct probe technique; chlamydia trachomatis	Infectious agent detection by nucleic acid (DNA or RNA); chlamydia trachomatis. Direct probe technique.	Chylmd trach, DNA, dir probe

HCPCS Code	South Carolina	North Carolina	Louisiana
87491	Infectious agent detection by nucleic acid; bartonella henselae and bartonella quintana, direct probe technique; chlamydia trachomatis, amplified probe technique	Infectious agent detection by nucleic acid (DNA or RNA); chlamydia trachomatis. Amplified probe technique.	Chylmd trach, DNA, amp probe
87492		Infectious agent detection by nucleic acid (DNA or RNA); chlamydia trachomatis, quantification	
87510	Infectious agent detection by nucleic acid; bartonella henselae and bartonella quintana, direct probe technique; gardnerella vaginalis		
87511	Gardnerella vaginalis, amplified probe technique		
87512	Gardnerella vaginalis, quantification		
87528	Herpes simplex, direct probe technique	Herpes simplex virus, direct probe technique	
87529	Herpes simplex, amplified probe technique	Herpes simplex virus, amplified probe technique	
87530	Herpes simplex, quantification	Herpes simplex virus, quantification	
87531	Herpes virus-6, direct probe technique		
87532	Herpes virus-6, amplified probe technique		
87533	Herpes virus-6, quantification		
87534	HIV-1, direct probe technique	HIV-1, direct probe technique	
87535	HIV-1, amplified probe technique	HIV-1, amplified probe technique	
87536	HIV-1, quantification	HIV-1, quantification	
87537	HIV-2, direct probe technique	HIV-2, direct probe technique	
87538	HIV-2, amplified probe technique	HIV-2, amplified probe technique	
87539	HIV-2, quantification	HIV-2, quantification	
87590	Infectious agent detection by nucleic acid; bartonella henselae and bartonella quintana, direct probe technique; neisseria gonorrhoeae, direct probe technique	Neisseria gonorrhoea, direct probe technique	N.gonorrhoeae, DNA, dir prob
87591	Infectious agent detection by nucleic acid; bartonella henselae and bartonella quintana, direct probe technique; neisseria gonorrhoeae, amplified probe technique	Neisseria gonorrhoea, amplified probe technique	N.gonorrhoeae, DNA, amp prob

HCPCS Code	South Carolina	North Carolina	Louisiana
87592	Neisseria gonorrhoea, amplified probe technique	Neisseria gonorrhoea, quantification	
87620	Papillomavirus, human quantification		HPV, DNA, dir probe
87621	Infectious agent detection by nucleic acid; bartonella henselae and bartonella quintana, direct probe technique; papillomavirus, human, amplified probe technique		HPV, DNA, amp probe
87622	Papillomavirus, human, direct probe technique		
87660	Trichomonas vaginalis, direct probe technique		
87797	Infectious agent detection by nucleic acid; not otherwise specified; direct probe technique, each organism		
87810		Infectious agent detection by immunoassay with direct optical observation; chlamydia trachomatis	Chylmd trach assay w/optic
87850	Neisseria gonorrhoea	Neisseria gonorrhoea	N. Gonorrhoeae assay w/optic
88108	Cytopathology, concentration technique, smears and interpretation		Cytopathology, fluids, washings or b
88141	Cytopathology, cervical or vaginal; requires interpretation by a physician	Cytopathology, cervical or vaginal; requiring interpretation by physician (use in conjunction with 88142-88154, 88164-88167)	Cytopath cerv/vag interpret
88142	Cytopathology, cervical or vaginal; collected in preservative fluid; automated thin layer preparation, manual screening under physician supervision	Cytopathology, cervical or vaginal, automated thin layer preparation	Cytopath cerv/vag thin layer
88143	Cytopathology, manual screening & rescreening under physician supervision	Cytopathology, manual screening & rescreening under physician supervision	Cytpath c/vag tilayer redo
88147	Cytopathology smears, screening by automated system under physician supervision	Cytopathology smears, screening by automated system under physician supervision	Cytpath c/vag automated

HCPCS Code	South Carolina	North Carolina	Louisiana
88148	Cytopathology, screening by automated system with manual rescreening	Cytopathology, screening by automated system with manual rescreening	Cytopath c/vag auto rescreen
88150	Cytopathology, slides, cervical or vaginal; manual screening under physician supervision	Cytopathology, manual screening under physician supervision	Cytopathology, pap smear
88152	Cytopathology, slides, cervical or vaginal	Cytopathology, slides, cervical or vaginal	Cytopath cerv/vag auto
88153	Cytopathology, slides, manual screening & rescreening under physician supervision (use in conjunction with 88142-88154, 88164-88167)	Cytopathology, slides, manual screening & rescreening under physician supervision (use in conjunction with 88142-88154, 88164-88167)	Cytopath c/vag redo
88154	Cytopathology, slides, computer assisted	Cytopathology, slides, computer assisted	Cytopath c/vag select
88155	Cytopathology, slides, cervical or vaginal		Cytopath,(pap);w/ def.hormonal eval
88160	Cytopathology, smears, any other source		Cytopathology
88161	Cytopathology, preparation, screening and interpretation		Cytopath;prep, screen, interp.
88162	Cytopathology, extended study involving over 5 slides and/or multiple stains		Cytopath;ext.study,+5 slides,multi
88164	Cytopathology, slides, cervical or vaginal (the bethesda system); manual screening under physician supervision	Cytopathology, slides, cervical or vaginal	Cytopath tbs c/vag manual
88165	Cytopathology, slides, cervical or vaginal (the bethesda system); with manual screening and rescreening under physician supervision	Cytopathology, slides, cervical or vaginal	Cytopath tbs c/vag redo
88166	Cytopathology, slides, cervical or vaginal (the bethesda system); with manual screening and computer-assisted Rescreening under physician supervision	Cytopathology, slides, computer assisted rescreening	Cytopath tbs c/vag auto redo
88167	Cytopathology, slides, cervical or vaginal (the bethesda system); with manual screening and computer assisted rescreening using cell selection and review under physician supervision	Cytopathology, slides, cervical or vaginal	Cytopath tbs c/vag select

HCPCS Code	South Carolina	North Carolina	Louisiana
88172	Cytopathology evaluation of fine needle aspirate; immediate cytohistologic study to determine adequacy of specimen(s)		
88173	Cytopathology; interpretation and report		Fine needle aspirate; interp/report
88174	Cytopathology, cervical or vaginal (any reporting system), collected in preservative fluid, automated system, under physician supervision		Cytopathology, cervical or vaginal col
88175	Cytopathology, slides, cervical or vaginal, collected in preservative fluid; automated thin layer preservative, screening, manual re-screening under physician supervision		Cytopathology with screening
88300	Level I surgical pathology, gross examination only		Surgical pathology, gross
88302	Level II - surgical pathology, gross and microscopic examination	Surgical pathology, gross and microscopic examination	Surgical pathology, complete
88305	Level IV surgical pathology, gross and microscopic examination		
88312			Special stains
88313			Special stains
89310		Semen analysis; motility and count (not including huhner test)	
90772	Therapeutic, prophylactic or diagnostic injection (specify substance or drug); subcutaneous or intramuscular		
93000		Electrocardiogram, routine ECG with at least 12 leads; with interpretation and report	Routine ECG w/at least 12 leads
93010		Electrocardiogram, routine ECG with at least 12 leads; interpretation and report only	
99000	Handling and/or conveyance of specimen for transfer from the physician's office to a laboratory		

HCPCS Code	South Carolina	North Carolina	Louisiana
99050		Services requested after posted office hours in addition to basic service	
99071	Educational supplies, such as books, tapes, and pamphlets, provided by the physician for the patient's education at cost to the physician		
99201	Office or other outpatient visit for the evaluation and management of a new patient	Office/outpatient visit; new patient physician time approximately 10 minutes	Office, new, problem, straightforward
99202	Office or other outpatient visit for the evaluation and management of a new patient	Office/outpatient visit; new patient moderate, physician time approximately 20 minutes	Office, new pt, expanded, straightforward
99203	Office or other outpatient visit for the evaluation and management of a new patient	Office/outpatient visit; new patient moderate, physician time approximately 30 minutes	Office, new pt, detailed, low complex
99204	Office or other outpatient visit for the evaluation and management of a new patient	Office/outpatient visit; new patient complex, physician time approximately 40 minutes	Office, new pt, comprehensive, moderate complex
99205	Office or other outpatient visit for the evaluation and management of a new patient	Office/outpatient visit; new patient complex, physician time approximately 60 minutes	Office, new pt, comprehensive, high complex
99211	Office or other outpatient visit for the evaluation and management of an established patient, that may not require the presence of a physician. Usually the presenting problem(s) are minimal. Typically, 5 minutes are spent performing or supervising these services.	Office/outpatient visit; established patient minimal, physician time approximately 5 minutes	Office, est pt, minimal problems
99212	Office or other outpatient visit for the evaluation and management of an established patient	Office/outpatient visit; established patient minor, physician time approximately 10 minutes	Office, est pt, problem, straightforward
99213	Office or other outpatient visit for the evaluation and management of an established patient	Office/outpatient visit; established patient severe, physician time approximately 15 minutes	Office, est pt, expanded, low complex

HCPCS Code	South Carolina	North Carolina	Louisiana
99214	Office or other outpatient visit for the evaluation and management of an established patient	Office/outpatient visit; established patient severe, physician time approximately 25 minutes	Office, est pt, detailed, mod complx
99215	Office or other outpatient visit for the evaluation and management of an established patient	Office/outpatient visit; established patient severe, physician time approximately 40 minutes	Office, est pt, comprehen, high complx
99238	Hospital discharge day management 30 minutes or less		
99239	More than 30 minutes		
99241	Office or other outpatient consultation: new or established patient: level 1	Office consultation; new or established patient minor, physician time approximately 15 minutes	Off consult, nre pt, prblm, strtfwd
99242	Office or other outpatient consultation; new or established patient; level 2	Office consultation; new or established patient low, physician time approximately 30 minutes	Off conslt, nre pt, xpnd pblm, strtfwd
99243	Office or other outpatient consultation; new or established patient; level 3	Office consultation; new or established patient moderate, physician time approximately 40 minutes	Off conslt, nre pt, dtld, lo complxy
99244	Office consultation for a new or established patient	Office consultation; new or established patient severe, physician time approximately 60 minutes	Off conslt, nre pt, cmphsv, mod complxy
99245	Office consultation for new or established patient, which requires these 3 components: comprehensive history; comprehensive examination, and decision making of high complexity. Counseling and/or coordination of care with other providers or agencies are provided consistent with the nature of the problem(s) and of moderate severity. Physician usually spends 80 minutes face to face with the patient/family	Office consultation; new or established patient complex, physician time approximately 80 minutes	Off conslt, nre pt, cmphsv, hi complxy
99281		Emergency department visit	
99385		Initial comprehensive preventive medicine, new patient, 18-39 years	
99386		Initial comprehensive preventive medicine, new patient, 40-64 years	

HCPCS Code	South Carolina	North Carolina	Louisiana
99395		Periodic comprehensive preventive medicine, established patient, 18-39 years	
99396		Periodic comprehensive preventive medicine, established patient, 40-64 years	
99401	Preventive medicine counseling and/or risk factor reduction intervention(s) provided to an individual (separate procedure); approximately 15 minutes		
99402	Preventive medicine counseling and/or risk factor reduction intervention(s) provided to an individual (separate procedure); approximately 30 minutes		
J1055	Injection medroxyprogesterone acetate (depo-provera)	Depo-Provera – 150mg/ml – Limited to one injection <u>every 70 days</u>	Depo-provera inj 150mg
J1056	Injection medroxyprogesterone acetate/estradiol cypionate 25 mg/5mg (lunelle)		Lunelle monthly contraception inj
J7300	Intrauterine copper contraceptive	Mechanical (Paragard) IUD	Intrauterine copper contraceptive
J7302	Levonorgestrel - release iu contraceptive 52 mg	Mirena IUD	Mirena
